ABOUT US

SCALE INFRASTRUCTURE PVT. LTD. is dedicated to serve the nation by participating in the infrastructure development and building process for general public at large and industry – creating financial rewards for our joint venture partners and making a positive impact on the team.

We are a group consisting of Engineers and Managers with many years of professional experience in different projects, establishing a track record of excellence and reliability in the field of civil and interiors. Projects have been completed for public and private sector clients in the institutional, commercial, industrial and residential sectors. The testimonial to our capability is our record of involvement in various projects, our ability with committees and our skills in translating client requirements into warm, humane and functional environment. We are a company comprised of individuals who have ample experience of handling varied projects all over the country.

INTERIORS

Interior design is the art and science of enhancing the interior of a building to achieve a healthier and more aesthetically pleasing environment for the people using the space.

ENGINEERS

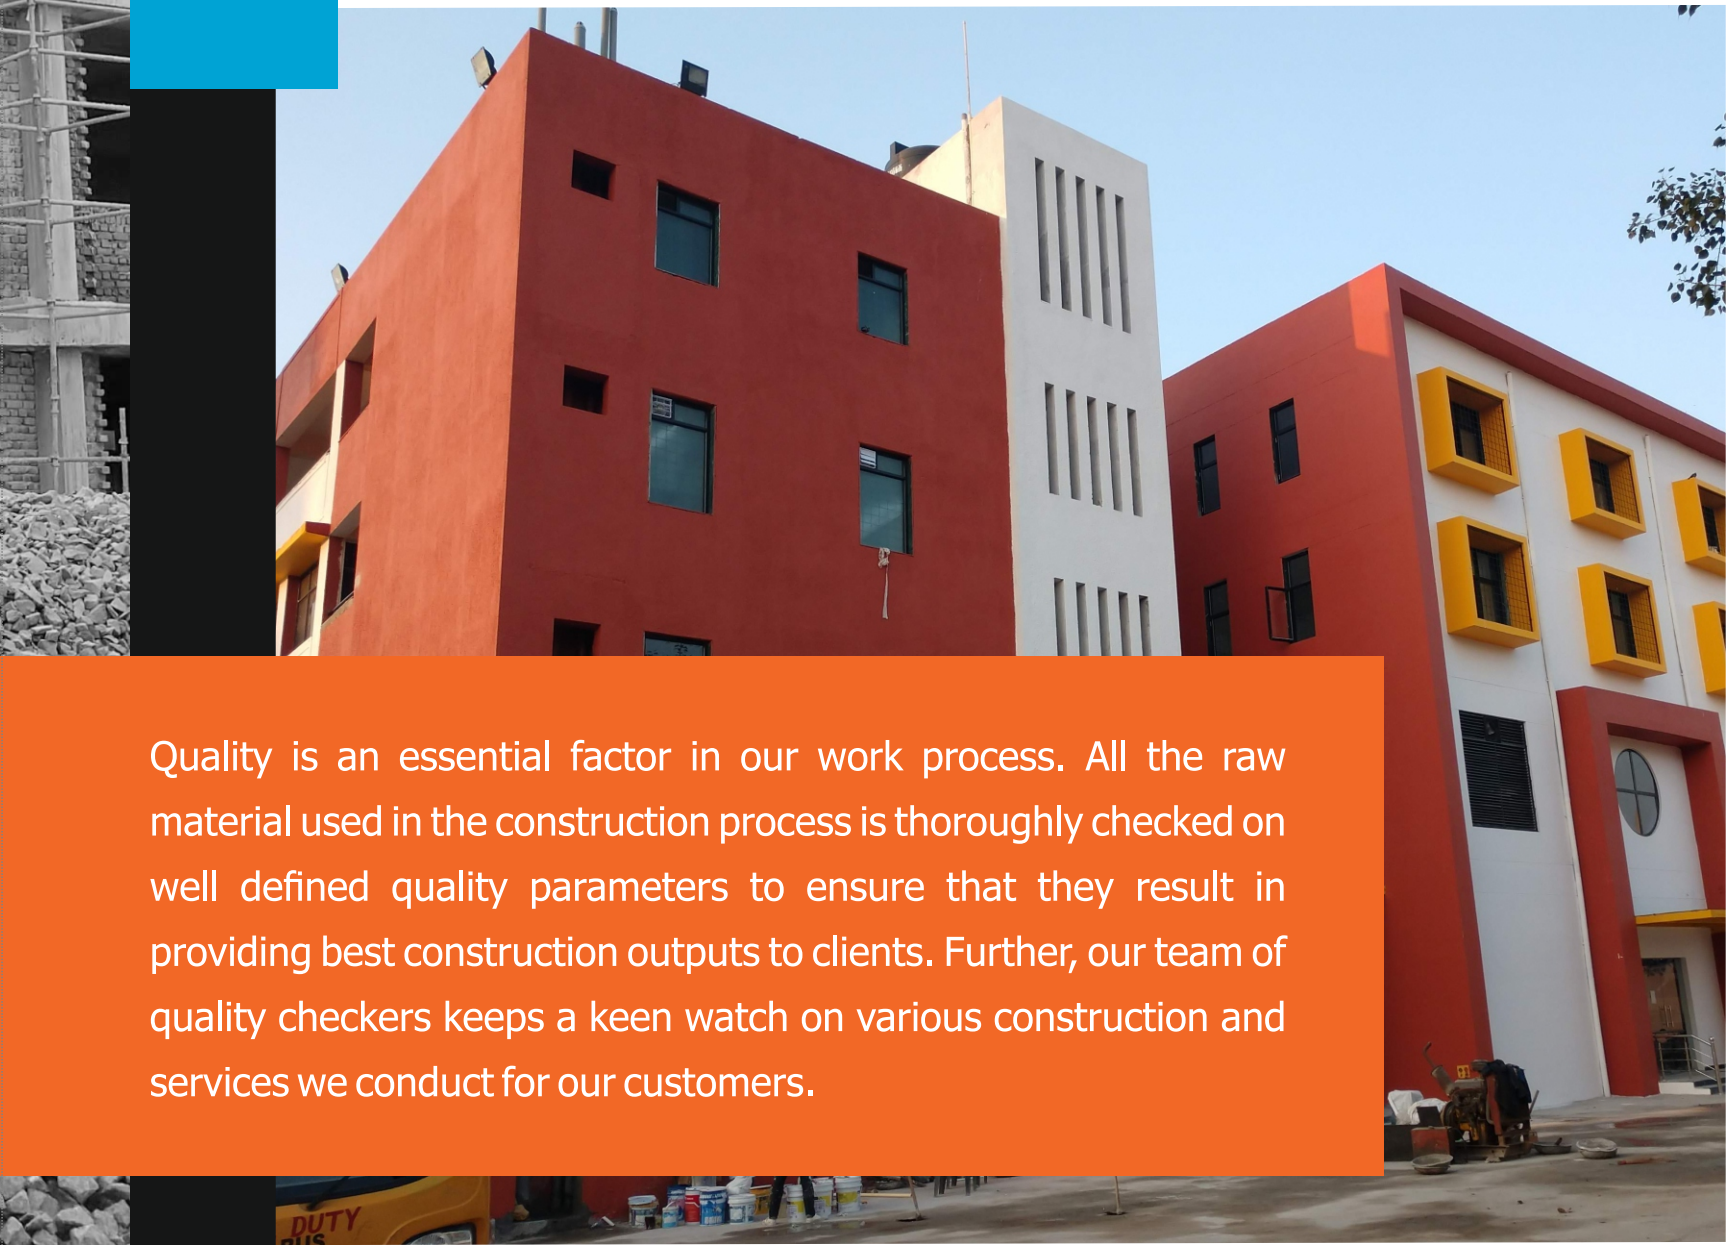

Engineers, as practitioners of engineering, are professionals who invent, design, analyze, build, and test machines, systems, structures and materials.

ARCHITECTURE

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures.

CONTRACTORS

Contractor is responsible for the day-to-day oversight of a construction site, management of vendors and trades, and the communication of information.

Quality is an essential factor in our work process. All the raw material used in the construction process is thoroughly checked on well defined quality parameters to ensure that they result in providing best construction outputs to clients. Further, our team of quality checkers keeps a keen watch on various construction and services we conduct for our customers.
